Tour Comment:

1) The transportation consignment listed above (including store mail, mail bags and seals), have been accepted in whole and good condition for safe transport. Trailers have been sufficiently precooled prior to loading and goods have been placed in the appropriate compartment and temperature area. In the instance of freezer loads sufficient temperature control of the goods have been adequately carried out. All legal requirements for the transit of goods are the sole responsibility of the carrier. All listed transportation units, cases and mail bags with correct number (TNR) and intact seal have been received completely. For all load units with chilled goods, a temperature check for the goods has been performed.
